

High Speed Broadband Internet

Faster than Dial Up Modem	Residential Service	Down Link Speed (In Kb)	Up Link Speed (In Kb)	Monthly Fee
8-20 Times	Bronze	256	128	\$29.99
16-40 Times	Silver	512	128	\$44.99
32-80 Times	Gold	768	256	\$64.99
64-160 Times	Platinum	1024	512	\$94.99

(THE ABOVE PRICES DO NOT INCLUDE THE \$5.00 MONTHLY MODEM RENTAL)

The monthly residential service fees shown above include 4 e-mail accounts. Additional e-mail accounts are \$1.00 extra monthly. You will need to call the office with your e-mail names and passwords, so we may enter them in the system.

Service fees include all equipment and DOCSIS Modem rental. You may purchase the DOCSIS modem for \$55.00 (*plus all applicable sales tax*). In so doing, your monthly service fees will be reduced by \$5.00 per month. Sterling cable will buy back the modem for \$55.00 during the first year of service if you should choose to disconnect service. After the first year Sterling Cable will not be under any obligation to buy back the modem. Should you choose to purchase the modem, Sterling Cable will maintain and service the modem as long as you subscribe to our Internet Service.

Internet accounts require a \$100.00 deposit or a valid Major Credit Card number to be kept on file for security (*deposit is required even with the purchase of the modem*).

If you choose to network your computers to the Internet you may do so with the purchase of a router or hub, which are available at any computer store.

Our technicians will mount the microwave antennae to the roof, run the cable wire from the antennae to the modem, and confirm that the modem will connect to the Zipnet server. You are responsible for connecting the modem to your computer and configuring your computer or network to the modem. You may call the office for some assistance.

Your computer should have:

- An operating system no older than Windows 95**
- An Ethernet or USB port connection**
- A processor speed of no less than 300 megahertz**

If your computer is lacking in these requirements the speed of the Internet will be affected, and possibly the installation of the modem.

If you have any question you may call or come buy:
